Message

Students are the building blocks of Society. Their ideas are fresh and innovative which should be nurtured so that they grow on to bring about a positive change. It is a proven fact that organized group activities are potential enabling factors for better cognitive developments and boosts spirit of Brotherhood. We at NSS, strive to achieve similar goals through various activities which have a direct impact on the society and environment at large.

NSS-DYPCA consists of students coming together from myriad backgrounds whether it is academic or cultural. NSS encourages students to adopt a healthy lifestyle and help them realize their responsibilities towards their homeland.

The activities undertaken at NSS-DYPCA are aiming for overall development of the students, by empowering them through various workshops. Many students successfully completed a workshop. Likewise, other activities like blood donation camps, plantation drives, cleanliness drives, awareness drives, helping the people from low socio-economic status by making them aware about their rights, are few standard activities which are followed. NSS- DYPCA provides a lot of scope for the students to interact with people belonging to all the classes of society and thus helping them understand their pressing issues. We also encourage sharing of ideas and providing support for those ideas to come to life. Currently our future plan focuses on 'Waste management',' Disaster preparedness' 'Health awareness', etc to name a few.
